Objective

To obtain a challenging Full Stack Developer position in a dynamic and innovative organization where I can utilize my technical and analytical skills in web development, API integration, and UI/UX optimization.

Experience

Vikraya Tech Plum | Full Stack Developer   **Apr 2025 – Present**

- **ShieldEdge (ICICI Bank)** *(Team Project)*: Developed **frontend modules using Python (Flask/Jinja)**, integrated **RESTful APIs**, and implemented **UI/UX improvements** for compliance dashboards.
- **OCR Data Extraction System** *(Solo Project)*: Built a full-stack OCR application (React + Python) for automated text extraction from invoices, cheques, FASTags, etc.; optimized **accuracy, speed, and UI responsiveness**.
- **MyDeck Audit Application** *(Team Project)*: Developed frontend using PHP Laravel, integrated **RESTful APIs**, standardized UI components, and improved **user experience**.
- Collaborated in agile teams, maintained **version control with Git**, and ensured **production-ready code delivery**.

Almabetter | Full Stack Web Developer Trainee   **2021 – 2023**

- Built E-commerce platform, Crypto Dashboard, To-Do App, and Portfolio website.
- Implemented **frontend and backend features**, responsive design, and **REST API integration**.
- Practiced clean coding standards, testing, and deployment on **Netlify and AWS**.

Education

Full Stack Web Development – Almabetter   **2021 – 2023**

B.Sc. in Computer Science – University of Mumbai   **2017 – 2021**
